YEAR
2020

ABSTRACT
In close exchange with Seawatch and associates we try to develop suggestions for communication design that helps to create a more welcoming and caring environment on board of the ship.

Notizen/Anmerkungen	Text	Notizen
<p>2.1 Rescue</p> <p>Introduction: What is a rescue?</p> <p>The other parties involved in the rescue are the rescuers (the rescuers) and the rescued (the rescued). The rescuers are the people who are trying to save the rescued. The rescued are the people who are in danger of death or serious injury.</p> <p>Rescue</p> <p>Rescue is the act of saving someone from danger. It can be physical or psychological. Physical rescue involves saving someone from a physical danger, such as a fire or a flood. Psychological rescue involves saving someone from a psychological danger, such as a mental health crisis or a crisis of faith.</p> <p>Rescue scenarios</p> <p>Rescue scenarios are situations in which a rescue is needed. They can be natural disasters, accidents, or medical emergencies. They can also be situations in which someone is in danger of death or serious injury due to a mental health crisis or a crisis of faith.</p>	<p>Rescue scenarios</p> <p>Rescue scenarios are situations in which a rescue is needed. SW 3+4: GUIDELINES FOR A LONG TERM GUEST COORDINATION SEA-WATCH MEDICAL DEPARTMENT/GUEST CARE

General ideas:.....	2	Preparation for Bad weather and a small amount of people:.....	5
Information.....	2	Crew change offshore.....	5
Amusement:.....	3	Proposal for a daily schedule:.....	6
Food on the ship:.....	4		

Serial: 21
Author: Lorenz Schramm
Version:2
Date of Creation/Update: 01.07.2020
Date of next Update:

As the political situation on the Mediterranean has changed massively, there is a big, big chance to have guests on board for quite a while, waiting for a port of safety. We have some ideas how guests can spend their time and get involved.

Our experiences on that are based on theoretical thoughts and mainly tested with 30 – 60 people on board. Please feel free to see this as ideas, which need to be adapted to your special situation.

GENERAL IDEAS:

- Routine and a great general crowd control (→ check SOP Crowd Control) is very important
- try to keep the mood on the ship always the level. Prevent overexcitement and frustration
- you have a lot of instruments described in this document. Think about, when you use them and hold options back that can influence the mood more than others, as you maybe have to stay for a longer time together and have need of them further on.

INFORMATION

- Morning Meetings with our guests which contain updates about the political situation and the plan for the day, leave space for questions
 - be aware: if you do not have good news, maybe you just skip the part about the political situations as maybe there will be everyday the hope that things change, which do not change
- hang up a map with the position of the boat
- we organized that relatives got informed about the rescue via what's app

- nice way to learn the names and get a good overview about guests: replace the bracelets with bracelets where you write the number from 1 to number of people (and their name). Make a list with this name: like this you learn the names every meal/distribution and you know exactly who got something, did not eat for day

(→ check form index for names for distribution as example)

AMUSEMENT:

- it is very important to keep people busy and to show that the time can be used for learning/doing something possibilities are:
- tours around the ship: You can visit: bridge, bow engine room with somebody who explains shortly everything, check before with the expert:)
- we have card games, dices and board games
- morning sports on the boat deck
- language classes for example German, Italian, Arabic, or languages your guests know, for this we have small books with pictures and pen & paper
- workshops from guests and crew about a special skill they have and like to share
- dancing in the evening (but caution: after a very good mood in the evening you will maybe have a shitty one in the morning)
- dinner for everyone
- let guests cook (but let them rotate and make sure you do not create a hierarchy)
- bring binoculars to the deck if you have something interesting on the horizon:)

- movie nights with a projector

HYGIENE ON THE SHIP:

- we have a huge amount of donated on the boat at the moment, so people can get "new" clothes if they are cold, to change the mood, we also have underwear, socks and bras and if it is very cold flip flops and slippers
- we have toothbrushes
- You can give the possibility to wash clothes (check with chief engineer because of water)
- showers are possible:
 - at every time in the toilets as it is saltwater shower head
 - in showers installed on deck, they run on salt and fresh water, freshwater has to be checked with the chief engineer
 - possible in two ways give a shower date and make sure nobody showers too long as water is rare on the ship
 - open the showers, explain that water is rare and that you have to close the showers if the water gets too low.
 - you can also first do option one and after a few days open the showers for self regulated use
 - use salt water

FOOD ON THE SHIP:

- Food is very important to keep up the mood. In the long term we are discussing how we can bring in a bigger variety in the food concept.
- You can serve:
 - Rice or Couscous with different kinds of proteins
 - with: veggies, tomato sauce and spices
 - and if your cook likes you can make specials in the crew kitchen

PREPARATION FOR BAD WEATHER AND A SMALL AMOUNT OF PEOPLE:

- Communicate to the guests openly about upcoming weather, get them involved in preparations, "It's not gonna be the end of the world, but", "everybody has to go into the recovery area", show windy-forecast or other weather forecasts
- Prepare guest accommodation and the space they will move to:
- Recovery area (this is our indoor space, usually reserved for the women and children): black mats as anti-slip, holding lines across the space, buckets to dump puke-bags, close and lock hatch to aft deck or whichever doors are relevant for your space.
- Toilets on the boat-deck ready to use as long as possible: clean, prepare holding-lines from both hatches of the middle deck to toilet, people will move through the crew-corridor at laundry side

CREW CHANGE OFFSHORE

Previous offshore crew changes showed, that a crew change is mentally very, very hard for our guests. Before the crew change make sure you communicate it very openly

Other Ideas are:

- new crew can be introduced with small videos/letters/pictures
- Guests can also make videos/letters/pictures

PROPOSAL FOR A DAILY SCHEDULE:

- 8:30: Breakfast
- 9:00-10:00: Morning Sports
- 10:00: Morning Meeting
- 11:00-12:00: Ship tours, Small workshops
- 12:00: Lunch
- 16:30: Siesta:)
- 16:30-18:00: Language Classes
- 18:00: Dinner

All rights reserved. If you want to know more about this project or if you are interested in a collaboration, please let us know by sending an email info@truth.design.
